To whom it may concern

Green Concepts International

We instructed Green Concepts International to draw up a plan for the design of our garden in the Meadows.

Obviously this was done with other companies being invited to tender as well. Green Concepts were the only company that listened to the ideas of what we were looking for, and they were the only truly innovative design company that we found. They impressed me with their cost saving solutions for the provision of a pool, their approach to the work and their attention to detail in terms of specifications and finishes. They were not afraid to tell me when they thought that I had made a mistake that they felt I would regret, and I can categorically state that each time they did so, and I followed their advice, I was far happier with their suggestion than with my original idea.

They delivered the garden on time and in a state far better than I ever expected.

I would not hesitate to recommend them for any job in the UAE.

Yours truly
